

## COURSE SCHEDULE

### Grade 1

*Textbook:* Math in my world 1 & Amazing science 1

*Time allotment :* 35 minutes/period ( 2 periods / week)

Week	Period	Subject	Topic	Objective	Content
Week 1	1	Science	Classroom rules	To introduce themselves. To know some classroom rules. To practice speaking, listening skills.	Introduce name, age. Introduce some some classroom rules
	2	Science	Classroom rules	To introduce themselves. To know some classroom rules. To practice speaking, listening skills.	Introduce name, age. Introduce some some classroom rules
Week 2	3	Math	Unit 1: Numbers 1 and 2 Lesson 1: Numbers 1 and 2	To learn counting number 1 To learn numbers 1 and 2 in word. To practice speaking, listening skills.	Introduce number 1 (one) and 2 (two) Introduce key words: write, trace, say, count
	4	Math	Unit 1: Numbers 1 and 2 Lesson 2: Sorting and counting to 2	To review number 1 and 2. To learn sort and count to 2. To practice speaking, listening skills.	Introduce how to sort things and count
Week 3	5	Science	Unit 2: My body (Cont.)	To learn some parts of the face: eyes, ears, nose, mouth. To practice listening and speaking skills.	Introduce parts of a head: eyes, nose, mouth, ears.
	6	Science	Unit 1: My body	To learn some main parts of a body. To practice listening and speaking skills.	Introduce parts of body: head, body, arm (arms), leg (legs)
Week 4	7	Math	Unit 1: Numbers 1 and 2 Lesson 3: Matching and counting	To review number 1 and 2. To learn count and match. To practice speaking, listening skills.	Introduce matching and counting. Practice matching and counting
	8	Math	Unit 2: Numbers to 4 Lesson 1: Numbers 3 and 4	To learn number 3 and 4 To practice speaking, listening skills.	Introduce numbers 3 and 4 Practice reading and writing number words: three and four

Week	Period	Subject	Topic	Objective	Content
Week 5	9	Science	Unit 3: Humans senses	To learn five senses of the body: smell, taste, touch, hear, see. To practice listening and speaking skills.	Introduce five senses: see, hear, smell, taste, touch
	10	Science	Unit 3: Humans senses	To learn five senses of the body: smell, taste, touch, hear, see. To practice listening and speaking skills.	Introduce five senses: see, hear, smell, taste, touch
Week 6	11	Math	Unit 2: Numbers to 4 Lesson 2: Counting to 4	To review counting to 4 To practice speaking, listening skills.	Review numbers 1 to 4 Count, and circle the number Count, write the number, circle the word and say
	12	Math	Unit 2: Numbers to 4 Lesson 3: Drawing, coloring and counting	To review number 3 and 4 To learn vocabulary: count, draw and color. To practice speaking and listening skills.	Teach new key words: draw, color Practice counting and coloring. Practice counting and drawing
Week 7	13	Science	Unit 4: Eyes and ears protection	To learn how to protect eyes and ears. To practice listening and speaking skills.	Introduce some good and bad activities: sit close to the TV, sit nicely, put a pencil into the ears, go to see the doctor.
Week 8	15	Math	Unit 3: Numbers to 6 Lesson 1: Numbers 5 and 6	To learn numbers 5 and 6. To practice speaking, listening skills.	Introduce numbers 5 and 6 Practice reading and writing number: five and six
	16	Math	Unit 3: Numbers to 6 Lesson 2: Counting to 6	To review numbers 5 and 6. To answer the question how many and say differences between 2 pictures. To practice speaking, listening skills.	Practice counting to 6 saying the differences between about 2 pictures
Week 9	17, 18	Science	Unit 5: Dental care	To learn some activities that are good for teeth. To practice listening, speaking and writing skills.	Introduce vocabulary: tooth, teeth How to protect our teeth?
Week 10	19, 20	Math	Unit 4: Numbers to 8 Lesson 1: Numbers 7 and 8	To learn number 7 and 8. To count and say numbers. To practice listening, speaking and writing skills.	Introduce numbers 7 and 8. Practice reading and writing number words: seven and eight
Week 11	21, 22	Science	Unit 6: Body hygiene	To learn how to keep the body clean. To practice listening, speaking and writing skills.	Introduce to some activities (take a shower, wash my hair, change clothes, wash my hands)

Week	Period	Subject	Topic	Objective	Content
Week 12	23	Math	Unit 4: Numbers to 8 Lesson 2: Counting on and back	To count on and count back. To practice listening, speaking and writing skills.	Introduce about counting on and back. Sing a song: Seven step
	24	Math	Unit 4: Numbers to 8 Lesson 3: Zero	To learn number 0. To write number 0 in word. To practice listening, speaking and writing skills.	Introduce number 0. Practice counting and say numbers
Week 13	25,26	Science	Unit 7: Good eating habits	To learn 3 main meals: breakfast, lunch, dinner. To practice listening, speaking and writing skills.	Introduce 3 main meals: breakfast, lunch, dinner.
Week 14	27	Math	Unit 5: Comparing within 10 Lesson 1: Numbers 9 and 10	To learn numbers 9 and 10. To practice reading and writing number in words. To practice listening, speaking and writing skills.	Introduce numbers 9, 10 Practice counting, reading and writing number words: nine, ten
	28	Math	Unit 5: Comparing within 10 Lesson 2: Counting to 10 Lesson 3: Comparing numbers within 10	To count to 10. To practice listening and speaking skills. To learn some signs: greater than, less than, equal to. To learn how to compare numbers. To practice listening and speaking skills	Counting 1 to 10 Practice counting and say numbers Introduce how to compare numbers. Comparison symbols.
Week 15	29,30	Science	Review	Review body parts Review 5 senses Review dental care Review body hygiene	Review body parts Review 5 senses Review dental care Review body hygiene
Week 16	31	Math	Review	Review number 1-10 Review counting to 10 Review reading and writing number in words. Review comparing numbers.	Review number 1-10 Review counting to 10 Review reading and writing number in words. Review comparing numbers.
	32	Math	Review	Review number 1-10 Review counting to 10 Review reading and writing number in words. Review comparing numbers.	Review number 1-10 Review counting to 10 Review reading and writing number in words. Review comparing numbers.
Week 17	33	Science	Semester 1 test (Listening, speaking)	To do the test.	To do the test.
	34	Science	Semester 1 test (W&R, speaking)	To do the test.	To do the test.
Week 18	35	Math	Semester 1 test (Listening, speaking)	To do the test.	To do the test.
	36	Math	Semester 1 test (W&R, speaking)	To do the test.	To do the test.

Week	Period	Subject	Topic	Objective	Content
Week 19	37,38	Science	Unit 12: Plants	To learn some kinds of plants. To learn uses of plants. To practice listening, speaking and writing skills.	Introduce some plants: rose, broccoli, grass, banana tree. The uses of plants
Week 20	39	Math	Unit 7: Addition within 10 Lesson 1: Making totals	To learn to add numbers within 10. To practice reading addition sentences. To practice listening, speaking and writing skills	Introduce how to add within 10 Symbols of addition: plus (+); equals (=).
	40	Math	Unit 7: Addition within 10 Lesson 2: Counting on	To learn to how to add and count on. To practice listening, speaking and writing skills.	Practice addind within 10 and counting on.
Week 21	41,42	Science	Unit 13: Trees	To learn some trees (tamarind tree, mango tree, bamboo tree, pine tree) and uses of trees. To practice listening, speaking and writing skills.	Introduce some tree: tamarind tree, mango tree, pine tree, bamboo tree. Uses of tree.
Week 22	43	Math	Unit 7: Addition within 10 Lesson 3: Number stories	To learn how to solve addition problems. To practice listening, speaking and writing skills.	Introduce about math story Intruct ss how to solve word problem.
	44	Math	Unit 8: Subtraction within 10 Lesson 1: Taking away	To learn how to do subtraction within 10. To practice speaking, listening skills.	Introduce about subtraction within 10 Introduce subtraction symbols: minus , equals Practice reading subtraction sentences.
Week 23	45,46	Science	Unit 14: Taking care of plants	To learn what they should or shouldn't do to take care plants. To practice listening, speaking and writing skills.	Intorduce some activities to take care of plants
Week 24	47	Math	Unit 8: Subtraction within 10 Lesson 2: Counting back	To learn how to count back within 10. To practice speaking, listening skills.	Introduce how to count back Introduce about crossing out.
	48	Math	Unit 8: Subtraction within 10 Lesson 3: Subtraction	To learn how to solve subtraction story. To practice speaking, listening skills.	Introduce solving maths story.

Week	Period	Subject	Topic	Objective	Content
Week 25	49,50	<b>Science</b>	Unit 15: Animals	To learn some animals that live underwater and on land. To practice listening, speaking and writing skills.	Introduce some animals that live underwater. ( Dolphin, turtle, shrimp, squid). Introduce some animals that live on the land.( bear, deer, rabbit, monkey, bird)
Week 26	51	Math	Unit 9: Shapes Lesson 1: Naming shapes	To learn some basic shapes: circle, triangle, square. To practice listening, speaking and writing skills.	Introduce some basic shapes: triangle, circle, square. Practice read and write name of shapes
	52	Math	Unit 10: Review Lesson 1: Numbers to 10	To review numbers and number words from 1 to 10. To practice listening, speaking and writing skills.	Review numbers 1 to 10. Practice reading and writing number words.
Week 27	53,54	<b>Science</b>	Unit 16: What do farm animals provide us?	To learn some animals in the farm and what they provide us. To practice listening, speaking and writing skills.	Introduce some animals in the farm. (chicken, pig, cow, sheep) What do farm animals provide us?
Week 28	55	Math	Unit 10: Review Lesson 2: Addition and subtraction	To review addition and subtraction within 10. To practice listening, speaking and writing skills.	Review addition within 10. Review subtraction within 10.
	56	Math	Unit 10: Review Lesson 3: test	To review some basic shapes. To practice listening, speaking and writing skills.	Review the basic shapes.
Week 29	57,58	<b>Science</b>	Review	To review plants and animals	Review plants, tree Review how to take care plants and trees Review animals

Week	Period	Subject	Topic	Objective	Content
Week 30	59	Math	Semester 2 test (Listening, speaking)	To do the test.	To do the test.
	60	Math	Semester 2 test (W & R, speaking)	To do the test.	To do the test.
Week 31	61	Science	Semester 2 test (Listening, speaking)	To do the test.	To do the test.
	62	Science	Semester 2 test (W & R, speaking)	To do the test.	To do the test.
Week 32	63	Math	Unit 9: Shapes Lesson 2: Matching and sorting	To review about shapes. To recognize the shapes in the real life. To practice speaking, listening skills.	Review basic shapes Identify shapes around them.
	64	Math	Unit 9: Shapes Lesson 3: Puzzle	To review about shapes. To practice to recognize the shapes in the real life. To practice speaking, listening skills.	Review about the shapes Activity: Making shapes
Week 33	65	Science	Unit 19: Day-night	To learn about day and night. To learn vocabulary about day and night. To practice listening and speaking skills.	Make an experiment to teach day and night. Introduce features of day and night: sun, cloud, moon, star
	66	Science	Unit 20: The Sun	To learn some characteristics of the Sun. To practice listening and speaking skills.	Introduce features of the Sun.
Week 34	67	Math	Unit 6: Number bonds Lesson 1: Making number bonds	To learn about number bonds and how to make number bonds. To practice listening and speaking skills.	Introduce about number bonds. Practice write numbers in number bond
	68	Math	Unit 6: Number bonds Lesson 1: Making number bonds	To learn about number bonds and how to make number bonds. To practice listening and speaking skills.	Introduce about number bonds. Practice write numbers in number bond
Week 35	69	Science	Unit 21: Wind-Rain	To learn some types of wind. To know that rain is necessary. To practice listening and speaking skills.	Introduce: light wind, strong wind and rain Introduce about rain.
	70	Science	Unit 22: Clothes and weather	To learn hot and cold weather. To learn some vocabulary about clothes. To know the right clothes to wear in different kinds of weather. To practice listening and speaking skills.	Introduce words: hot weather and cold weather Introduce some vocabulary about clothes: hat, T-shirt, sunglasses, sweater, scarf, gloves
