- 4 Robots do not have these. _____
- 5 Cars go along this. _____
- 6 Doctors help us with this. _____

Task 7: Read the text. Underline the new words in the text. Then match.

What will life be like in 100 years?

Lam, 11

I think robots will do everything for us. They'll do all the dangerous jobs, like firefighters' jobs, and help in the house. Robots will listen to us and talk, but they won't have feelings like people. I think robots will help us with our homework, too. That will be great!

Trung, 10

There will be more people on Earth in the future because there will be less illness. More people will buy cars and this means that our roads will be crowded. So, I think we will have new roads in the sky and our cars will be very different, too.

Kim, 10

I sometimes worry about the future. I think it will be hotter and there will be more storms. It will rain a lot and the oceans will get bigger. It will be more difficult to grow food. Animals like polar bears won't have homes because there won't be any snow where they live.
