

We learned how to double small numbers.

double = **x2**

There are 7 happy faces.

To double 7, we do  $7 \times 2$ .

**x2**

=

Double 7 happy faces is 14 happy faces.

There is 1 rabbit.

1)

2)

$$1 + 1 = 2$$

$$1 \times 2 = 2$$

3)

Double 1 rabbit is 2 rabbits.

1)

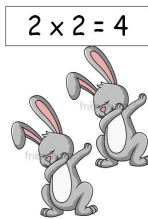

There are 2 rabbits.

2)

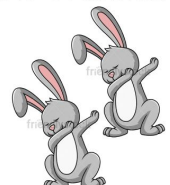

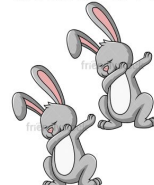

$$2 + 2 = 4$$

$$2 \times 2 = 4$$

3)

Double 2 rabbits is 4 rabbits.

1)

There are 4 rabbits.

2)

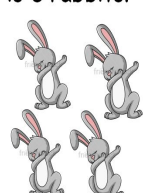

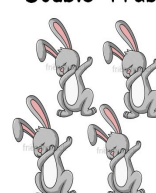

$$4 + 4 = 8$$

$$4 \times 2 = 8$$

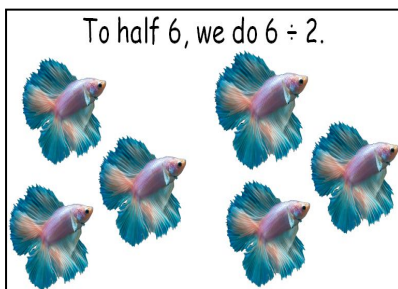

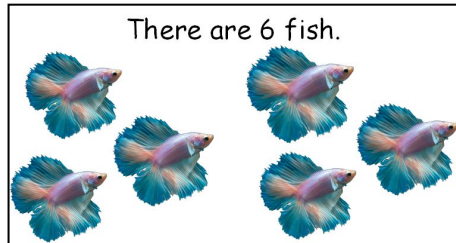

3)

Double 4 rabbits is 8 rabbits.

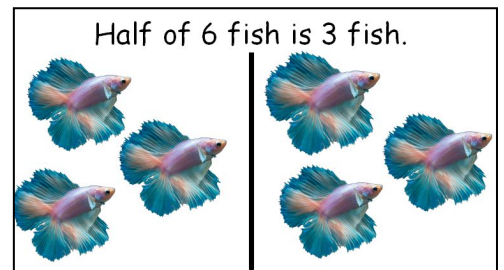

We learned how divide small numbers in half.

$$\text{half} = \div 2$$

$$\div 2 =$$

1) There are 8 stars.

2)  $8 - 4 = 4$

$8 \div 2 = 4$

3) Half of 8 is 4.

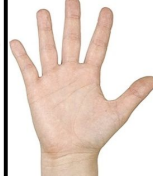

1) There are 10 fingers.

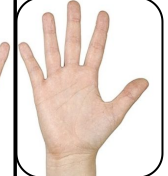

2)  $10 - 5 = 5$

$10 \div 2 = 5$

3) Half of 10 is 5.

1) There are 20 flowers.

2)  $20 - 10 = 10$

$20 \div 2 = 10$

3) Half of 20 is 10.
